PERSONAL PROJECTS

Multi-User Chat Application (04/2023 - 05/2023)

- A **JAVA GUI Chat Application** made using Eclipse IDE that uses Socket Programming to connect multiple clients to a single host located at any machine on a Local Area Network and allows them to chat both altogether and privately with each other. The concepts used include Java Socket Programming, Java multi-threading and Java Swing.

Notes Sharing Application (08/2022 - 09/2022)

- An Application where Admin can upload notes in PDF form in the Cloud stored in AWS S3 , and a user can download it as per his requirements.
- I have used JAVA programming language , My-SQL for databases , java database connectivity(JDBC) and S3 service of AWS.

Mini Banking Application (07/2022)

- An dummy bank application can do transaction , add multiple accounts , do transaction between these accounts. I have used only Core Java in it.

Basic Calculator

- Technology used is Core Java
